Dispense  
**Frozen Cappuccino,**  
**Fruit Slush,**  
**Smoothies & More!!**

**Single Bowl Model Only 7" Wide**

# Industry Leading Features

- ✓ **Patented Magnetic Drive System** – The auger motor turns magnetically. The Granita product is encapsulated inside the bowl and can not leak into the motors. This system lowers maintenance costs and decreases auger motor burnout.
- ✓ **Magnetic Drive Slippage System** – Eliminates damage to the auger motor if product freeze-up occurs.
- ✓ **Freezing Chamber** – Solid freezing chamber freezes product quickly and efficiently.
- ✓ **"New Style" Faucet Piston** – Allows frozen product to freely circulate around the piston, eliminating the potential of bacteria build up.
- ✓ **24 Hour Programmable Defrost Timer** – Simply set the timer to defrost any product, keeping it chilled and automatically turning back to the frozen mode at the specified time.
- ✓ **Filter** – Easily accessible via thumbscrews through the side panel of the machine. Periodic cleaning keeps the dispenser in top condition.
- ✓ **360° Wrap-Around Graphics** – Helps merchandise the Granita product resulting in additional sales.
- ✓ **Adjustable Slush Mode** – Allows you to set the slush consistency of the Granita drink.
- ✓ **Cool Beverage Mode** – In addition to selling Granita products, this mode gives you the ability, at the push of a button, to sell refreshing cold beverages. Perfect for selling Fruit Punch, Iced Cappuccino, Lemonade and more. Thermostatically adjustable for proper temperature.
